DETAILED ACTION

(Including an Examiner's Amendment)

Response to Arguments

Applicant's arguments filed 7/14/05 have been fully considered and are deemed persuasive. Applicant primarily argues that by virtue of the assignee, Black and Decker, now owning both the Smith and Domes patents and that the submitted claims are narrower than the original claims. Applicant has provided claim language still supported by the Domes specification, but which were originally claims of the Smith patents save the one limitation that narrowed each independent claim from the original Smith claims. Thus, with the terminal disclaimer, the application is in condition for allowance.

Allowable Subject Matter

Claims 21-24 and 26-44 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 21, 24, 28, 33, 36 and 40, the examiner is in agreement with applicant's arguments regarding the reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT
